FOR IMMEDIATE RELEASE

Xavier University of Louisiana raring to face rival and fellow HBCU Dillard

###

About Xavier University of Louisiana

On the cusp of celebrating its first 100 years of service, Xavier University of Louisiana remains America's only historically Black and Catholic University and is ranked among the top HBCUs (historically Black colleges and universities) in the nation. Recognized as a national leader in STEM and health sciences, Xavier has historically produced more African American students who graduate from medical schools each year than any other university in the United States. Additionally, Xavier's College of Pharmacy is among the country's top producers of African American pharmacists

Established almost a century ago in 1925 by Saint Katharine Drexel and the Sisters of the Blessed Sacrament as a place for African Americans and Native Americans to receive a quality education, Xavier has since expanded its programs in nearly every industry, including the arts, sciences, business, education, pharmacy, and political science. More recent additions in STEM-based master's programs and undergraduate options in robotics, bioinformatics, engineering, data science, neuroscience, and genetics, have provided Xavier students (3,181 students) an unbeatable experience of traditional classroom study, hands-on research, service-learning opportunities, and life experiences. Xavier students collaborate with world-renowned faculty and experts in their fields to produce award-winning research and notable work. The winning Xavier formula provides students with a well-balanced curriculum and an environment that nurtures their intellect and feeds their souls, developing all who choose to learn at the institution into the next generation of leaders and agents of positive change. Blessed with a mission to promote a more just and humane society, Xavier is leading the way to a brighter future for all.
